PERSONAL STATEMENT

As a Frontend Engineer, I specialize in creating advanced digital solutions tailored to help businesses grow. I'm skilled at using software design patterns to develop creative projects that impress client. I've successfully worked on various projects, such as developing an application that streamlined medical supplies and tracking. This boosted revenue for both the business and healthcare facilities. I'm dedicated to achieving goals and always strive to innovate. What makes me stand out is my commitment to progress and produce quality in every project.

EXPERIENCE

Frontend Engineer - LifeBank Technologies   **Jun 2023 – Current**

- Developed responsive and intuitive user interfaces for web and mobile applications using Javascript React typescript, and React Native.
- Work with a team of developers in the creation of responsive and intuitive user interfaces for web and mobile applications using JavaScript, React, TypeScript, and React Native.
- Collaborate closely with designers and backend developers to implement pixel-perfect designs and ensure seamless integration.
- Actively participate in Agile development processes, including daily stand-ups, sprint planning, code reviews, and retrospectives.
- Continually improve team's code quality and maintainability through the use of best practices and regular code reviews.
- Utilize ESLint and Prettier for code linting and formatting, ensuring code consistency and adherence to best practices.
- Skills: Javascript · Typescript · React Native · ReactJs · TailwindCss · Modular Css · Styled Components · UI Libraries · Formik + Yup · Redux · Redux toolkit · Git · Bitbucket · Jira

EDUCATION & CERTIFICATION
